| 9 | Clearly understanding the role of all the parties at the GT and their contribution to their sector, community and representatives. | 10/6/2022 12:18 PM |
| 10 | understanding its purpose and role in governance procedures The 28 initiatives are projects identified by the 3 tiers of government designed to drive economic growth and address regional issues such as overcrowding, child safety and youth crime. There is blurring of lines between community led and Government policy and procedures in project delivery to completion. | 10/5/2022 1:31 PM |

| 13 | The GT would benefit from embracing a model of communication and decision making, such as "deep democracy". This would assist in developing leadership, of ensuring more voices are heard, and also to explore matters in more detail so they are better understood. The GT needs to provide better guidance and accountability to the Backbone to help it acquit its important role and ensure its effectiveness. The commonwealth would benefit from having a lead representative who is based in the region and takes responsibility for all commonwealth matters, opportunities are missed without this and service system reform effectiveness reduced without this. | 8/9/2022 3:21 PM |
| 14 | publicizing and positive story around the Deal is not apparent. Need better comms. This will impact on further government support, some projects slow to progress. | 7/20/2022 1:11 PM |

| 17 | *The 28 initiatives were a response by Government to a triggering incident.(referred to as The Problem). * The setting up of the Governance table and the work that has come after --- really should have come first.... * No one is talking about or identifying "The Problem" There is yet much work to do to ensure that Government at all levels is listening to Community Voices and addressing their needs . The BRD has an end date and set initiatives - but we need to be planning for long term solutions to issues that have evolved as a result of Rascist / discriminatory and punative Government Policy over many years...(Since John Howard defunded the outstations and small communities and forced people to move into "Ghettos" in Major population centres - then the dismantling of Aboriginal representative Bodies and the Intervention..... There is a growing divide between Government (at all levels) and the Community and NGO sector. | 6/2/2022 7:32 PM |
